

Neany Incorporated (www.neanyinc.com) is a small company experiencing rapid growth. We specialize in the development and support of sensors and unmanned vehicles for the Department of Defense and Homeland Security. Our company is headquartered in Hollywood, Maryland near the Patuxent River Naval Air Station. We are actively interviewing for the following full-time position at our office in Yuma, Arizona.

Software Developer

The successful candidate will be responsible for building, enhancing, and maintaining our software product lines. You will be required to research, design and code complex algorithms covering a wide variety of disciplines including video surveillance, UAV flight control, and flight simulation. Additional duties include writing white papers, users manuals, and other product support documentation.

Qualifications:

- BS of Computer Science or Information Technology. Candidates with a related degree or demonstrated experience will also be considered.
- 3+ years as a developer using programming languages such as C, C++, or C#
- Knowledge of object-oriented principles and software development methodologies
- Ability to effectively prioritize own work and resources to complete projects on time
- Ability to work well in a team
- Strong communication skills
- Professional and positive interactions

Other Desired Skills:

- 3+ years experience with Visual Studio
- 3+ years experience with Windows software development
- Understanding of networking protocols
- Experience with IIS and web services
- Experience with Rabbit Semiconductor's Dynamic C

Neany offers excellent pay and benefits. Our headquarters are located in the heart of Saint Mary's county Maryland in close proximity to the District of Columbia and Baltimore, Maryland. We also have offices in Crystal City, Virginia and Yuma, Arizona.

How to Apply:

Please send your resume to hr-eng@neanyinc.com and put **Software Developer Hollywood and your last name** in the subject line.
